

Are All Seats Safe?

All car seats rated by NHTSA meet Federal Safety Standards & strict crash performance standards. While all rated seats are safe, they do differ in their ease of use in four basic categories:

Evaluation of Instructions	Vehicle Installation Features
Evaluation of Labels	Securing the Child

It Must Fit Right To Work Right

Remember, the best car seat is the one that fits your child properly, is easy to use, and fits in your vehicle correctly.

The only brand to receive 5 stars.

Ease of Use Ratings

NHTSA Ease-of-Use 5-Star Ratings

NHTSA uses a five-star rating system to help consumers evaluate the four basic category ratings:

- ★★★★★ = Excellent features on this child restraint for this category.
- ★★★★ = Above average features on this child restraint for this category.
- ★★★ = Average features on this child restraint for this category.
- ★★ = Below average features on this child restraint for this category.
- ★ = Poor features on this child restraint for this category.

Infant
